

Correction No. 1 made to the List of Medications on 24 May 2018

An Act respecting prescription drug insurance
(chapter A-29.01, s. 60, 7th para. and s. 60.2)

In accordance with 60.2 of the Act respecting prescription drug insurance, the Régie de l'assurance maladie du Québec (the Régie) has made the required corrections to the List of Medications, attached to the Regulation respecting the List of medications covered by the basic prescription drug insurance plan (CQLR, chapter A-29.01, r. 3), which came into force on 24 May 2018. Pursuant to this section, these corrections may come into effect on the effective date of the price drop or of the provision for which the correction was requested.

In this regard, the Régie was informed of a manifest clerical error regarding pms-Amitriptyline™ Tab. 100 mg, for which it was necessary to rectify the package size cost and the unit price:

Code	Brand name	Manufacturer	Package size	Cost of package size indicated	Corrected cost of package size	Unit price indicated	Corrected unit price
02468409	pms-Amitriptyline	Phmscience	100	\$22.72	\$27.72	\$0.2272	\$0.2772

As well, the Régie revised downward the price of Lasix™ Oral Sol. 10 mg/mL with respect to its package size cost and unit price:

Code	Brand name	Manufacturer	Package size	Cost of package size indicated	Corrected cost of package size	Unit price indicated	Corrected unit price
02224720	Lasix	SanofiAven	120 ml	\$38.75	\$36.99	\$0.3229	\$0.3083

These corrections were made due to the regulatory commitment by the manufacturer to submit to the Minister of Health and Social Services a selling price that is not higher than the selling price which it consented to other provincial prescription drug insurance programs for the same medication (best price in Canada).

These corrections come into effect on 24 May 2018.

Publication of these corrections on the website of the Régie imparts authentic value to them, in accordance with the last paragraph of section 60 of the Act respecting prescription drug insurance.
