PART III: ELEMENTS INCLUDED IN THE PRICES OF THE DEVICES:

- 1. The maximum price for the purchase or replacement of an insured device referred to in Part I or II of this Title includes the following elements:
- (1) the maximum price for its basic components and supplements;
- (2) the cost of its manufacture;
- (3) the cost of fittings required while it is being manufactured, up to and including the final installation;
- (4) the cost of fittings and repairs during the guarantee period referred to in this Title in respect of each device, beginning immediately after the final installation and during which any fitting or repair of a device used under normal conditions is made, in order to bring the device into conformity with the original medical prescription, where the beneficiary's physical condition has not changed, and to enable the beneficiary to derive maximum benefit from the device.
- 2. The maximum replacement cost of a component or supplement for a device referred to in Part I or II of this Title includes the following elements:
- (1) the cost price of the materials;
- (2) the cost of its manufacture, if any;
- (3) the cost of fitting and installation.
- 3. The maximum price for a cane includes the safety tip, and the fixed price for a pair of height-adjustable axillary crutches includes the safety tips, the axillary pads and the elastomer handrest covers.
- 4. The maximum price for a standard post-operative prosthesis assumed by the Board following the amputation of a lower limb includes the supply, even if temporary, of the components required for the entire time the prosthesis is worn, the work performed in the operating room, the waiting period, the application of a rigid bandage, the fixation of the pylon and foot, and the changing of the rigid bandage as required.
- 5. The maximum price for a post-operative pneumatic prosthesis assumed by the Board following the amputation of a lower limb includes the supply, even if temporary, of the components required for the entire time the prosthesis is worn, the work performed at the institution, the waiting period, and the installation of the pneumatic lining, metallic support and means of suspension.
- 6. The maximum price for a temporary prosthesis assumed by the Board includes, for the entire time the prosthesis is worn, the supply, even if temporary, of the components, the manufacture of or modifications made to the socket, the means of suspension required, as well as the alignment and fittings required.
