C. Data bank entrusted to the Régie

The MSSS has entrusted the Régie with a number of data banks, under section 2 of the Act respecting the Régie de l'assurance maladie du Québec. These banks contain a subset of the data collected and used by the institutions and agencies of the health and social services network and pertaining to the services provided to the network clientele. Funding for them is through the Health Services Fund, under an agreement between the MSSS and the Régie concluded on March 13, 2012.

SYSTÈME D'INFORMATION SUR LA CLIENTÈLE ET LES SERVICES DES CLSC (I-CLSC)

This bank contains non-nominal data on the users of local community service centres (CLSCs), the requests for services and the specific interventions and activities carried out for these users.

MAINTENANCE ET EXPLOITATION DES DONNÉES POUR L'ÉTUDE DE LA CLIENTÈLE HOSPITALIÈRE (MED-ÉCHO)

This data bank contains information relative to hospitalizations and day-surgery registrations in the hospital centres of Québec.

REGISTRE QUÉBÉCOIS DU CANCER (RQC)

This register is an extension of the on-going Québec Tumour Registry, incorporating the content of the Registry and adding to it information from local cancer registries. This database contains information on people with cancer in Québec and is useful for tumour-related monitoring, research, planning and evaluation of health care and services.

BANQUE DE DONNÉES COMMUNES DES URGENCES (BDCU)

This data bank replaces the emergency room register. It contains information on the care and services received by persons registered at the emergency department of a Québec institution, as well as information on the number of users of emergency departments and the length of time spent in those departments. Use of this bank is aimed at establishing directions and targets for health care.

SYSTÈME D'INFORMATION DU REGISTRE DES TRAUMATISMES DU QUÉBEC (SIRTQ)

The register contains information on victims of major trauma, including the event resulting in the trauma, any interventions made prior to going to the hospital, the stay in emergency and the hospital-setting follow-up.

BANQUE DE DONNÉES COMMUNES DU PROJET INTÉGRATION JEUNESSE (PIJ)

This data bank contains non-nominal information concerning services provided to users of all youth centres in Québec, in relation to the application of the Youth Protection Act, the Youth Criminal Justice Act and the Act respecting Health Services and Social Services.
